

Vehicle Diagnostic Assistant™

A technician's job just got a lot easier.

Engines

Transmissions

Brake Systems

Caterpillar

Cummins

Detroit Diesel

Guide

Our graphical user interface guides the technician through the proper selection of software, interface boxes and cables for each specific vehicle component.

Vehicle Diagnostic Assistant™

This easy to use diagnostic tool puts the power of Truck OEM diagnostic software into one complete package. Our customized diagnostic system provides technicians with the

right tools to diagnose engines, transmissions and braking systems found in today's buses, trucks and automobiles. An easy to use graphical user interface enhances

the tools ability to guide the technician through diagnostic procedures, enabling the technician to get to the root of the problem quickly.

Available Panasonic Toughbook Integrated Options

The Panasonic Toughbook laptop is designed to meet the needs of the demanding user. It is the perfect computer for the service bay. It has been tested for resistance against drops, liquid spills, dust and temperature extremes.

Panasonic Toughbook: CF-30
Fully ruggedized computer. Designed using MIL-STD-810f test procedures. Full magnesium alloy case, vibration and drop-shock resistant, built in carry handle, removable shock mounted hard drive, moisture and dust resistant design. 13.3" monitor that is available with touch screen options.

Panasonic Toughbook: CF-19
Fully ruggedized computer. Designed using MIL-STD-810f test procedures. Full magnesium alloy case, vibration and drop-shock resistant, built in carry handle, removable shock mounted hard drive, moisture and dust resistant design. Converts into a tablet computer. 10.4" touch or digitize monitor.

Panasonic Toughbook: CF-52
Magnesium alloy LCD and bottom case, shock mounted removable hard drive, built in carry handle. Large 15.4" display. Spill-resistant keyboard and touchpad. Moderately priced.

Vehicle Diagnostic Assistant™: VDA

The VDA provides the technician with the same diagnostic tools and information found in dealerships and OEM service centers. The VDA comes with all necessary cables and interface boxes that connect powerful modern computers to today's sophisticated electronic vehicles.

The VDA is the perfect solution for Garages and Service Centers.

The Vehicle Diagnostic Assistant™ utilizes the Panasonic Toughbook which features a magnesium alloy LCD case that is 20 times stronger than ABS plastic to protect critical and expensive-to-replace components. The hard disk drive is mounted in a shock-absorbing polymer compound that protects the Hard Drive from vibration and shock, while securing mission-critical data.

The Vehicle Diagnostic Assistant™ is updateable and is customized for each of our customer's specific needs. It is an essential tool for today's vehicle technicians.

VDA

customized: Design

Our engineers listened directly to vehicle technicians when designing the Vehicle Diagnostic Assistant™. From start to finish our product has been designed to be one stand alone and easy to use computer based diagnostic tool that focuses on the specific maintenance needs of each customer. It's mobile design also makes it easy to move about the garage from vehicle to vehicle.

software: OEM

Original Equipment Software provides the technician with the same tools and information that is found in dealerships and OEM service centers. Our custom software applications have become industry standard due to our easy to use graphical interface and our extreme desire to give technicians the best and most direct ability to view & clear codes, monitor parameters, run diagnostic test and access diagnostic trees. Applications for engines, transmissions and braking systems are available for OEMs that include: Cummins, Detroit, International, Mack, Volvo, OBDII, Allison, Eaton, Bendix, Meritor Wabco (Other Applications available upon request).

friendly: Support

Our professional and friendly staff utilizes an interactive knowledge database to help customers in need of assistance. This database helps our service personnel quickly and accurately post and search past issues to provide customers with both prompt and comprehensive assistance.
