# Vehicle Diagnostic Assistant™

## Power Mobility & Ruggedness Combined

Simply the best new tool for vehicle maintenance. It can help you complete more thorough and accurate vehicle repairs than ever before. Empowering the user to get to the root of the problem quicker than ever.

This easy to use diagnostic tool puts the power of Truck OEM diagnostic software into one complete package. Our customized diagnostic system provides technicians with the right tools to diagnose engines, transmissions and braking systems found in today's buses, trucks and automobiles. An easy to use graphical user interface enhances the tool's ability to guide the technician through diagnostic information, enabling the technician to get to the root of the problem quickly.

**customized Design.** Our engineers listened directly to vehicle technicians when designing the Vehicle Diagnostic Assistant™. From start to finish our product has been designed to be one stand alone and easy to use computer based diagnostic tool that focuses on the specific maintenance needs of each customer. It's mobile design also makes it easy to move about the garage from vehicle to vehicle.

**software OEM.** Original Equipment Software options provides the technician with the same tools and information that is found in dealerships and OEM service centers. Our custom software applications have become industry standard due to our easy to use graphical interface and our extreme desire to give technicians the best and most direct ability to view & clear codes, monitor parameters, run diagnostic test and access diagnostic trees. Applications for engines, transmissions and braking systems are available for OEMs that include: Cummins, Detroit, International, Mack, Volvo, OBDII, Allison, Bendix, Meritor Wabco (Other Applications available upon request).

**friendly Support.** Our professional and friendly staff utilizes an interactive knowledge database to help customers in need of assistance. This database helps our service personnel quickly and accurately post and search past issues to provide customers with both prompt and comprehensive assistance. We also have the ability when needed to remotely aide customers with various issues.

## Panasonic Toughbook 54.

The world's lightest and thinnest semi-rugged laptop in its class.

The new Toughbook® 54 laptop from Panasonic uses the latest advances to create a laptop two pounds lighter and half an inch thinner than the competition. It features a spill-resistant, full magnesium alloy design, hard drive heater, backlit keyboard and is available in four different models to suit every need. The Toughbook 54 has a wide range of integrated options such as dedicated GPS, 4G LTE mobile broadband with satellite GPS, antenna pass-through, and insertable and contactless SmartCard readers. It is the only semi-rugged laptop that offers an optional second battery, allowing hot swap battery replacement without the need to shut down or hibernate. It is also the only laptop in its class to offer dual drives, another feature that makes the Toughbook 54 one of the most versatile and advanced semi-rugged notebooks on the market.
